## HAMBURGERFONTS

*to produce a clear, elegant sans that was functional but not bland*

## LESS CUDDLY

*improve the visual readability, clarity and legibility of type onscreen*

*more assertive*

*How had he approached designing simultaneously for the three scripts?*

DESIGNER'S DESCRIPTION: Corbel is designed to give an uncluttered and clean appearance on screen. The letter forms are open with soft, flowing curves. It is legible, clear, and functional at small sizes. At larger sizes, the detailing and style of the shapes is more apparent, resulting in a modern sans serif type with a wide range of possible uses. This font is suitable for business documents, email, web design.
